ABOUT US

Wrangler Global Limited is a premier Kenyan export and trade enterprise headquartered in Busia, Kenya. We specialize in sourcing, quality processing, and international distribution of high-grade natural stones and agricultural commodities.
Bridging the gap between East Africa's rich resource producers and global buyers, we are committed to ethical trade practices, stringent quality assurance, and seamless supply chain management

Why Partner With Us?

- Direct Sourcing: Located in East Africa's primary trade corridors with direct access to local producer networks.
- Quality Assurance: Strict quality verification from point of origin to final shipment dispatch.
- Ethical & Sustainable Trade: Supporting rural farming and artisanal communities through fair-trade alignment.
- Full-Service Logistics: End-to-end handling of export documentation, phytosanitary certifications, custom packaging, and global freight delivery.

PRODUCT OVERVIEW

Natural Stones & Craftsmanship

- Source: Authentically and sustainably quarried from Kisii, Kenya.
- Craftsmanship: Hand-carved by skilled local artisans.
- Applications: Decorative accents, artistic carvings, functional homeware, and custom architectural elements.
- Specifications & Packaging: Available in raw blocks, semi-finished slabs, or fully carved items. Custom export-ready protective packaging.

Agricultural Commodities

1. **Sesame Seeds**
   - Grade: High-purity, premium export quality.
   - Sourcing: Direct from East Africa's fertile agricultural belts.
   - Key Specs: Low moisture content, thoroughly cleaned and sorted.
   - Packaging: Standard bulk jute/PP bags (25kg/50kg) or client-specified containerized shipment.

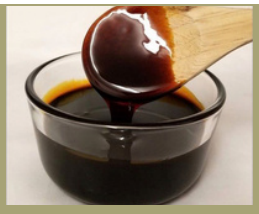

2. Red Ground Nuts

- Grade: Organically grown, premium sorted red peanuts.
- Applications: Wholesale processing, food-grade manufacturing, and retail distribution.
- Key Specs: Aflatoxin-tested, uniform grain size, low moisture level.
- Packaging: Bulk export bags with moisture-barrier protection.

3. SugarCane Mollasess

- Grade: Bulk industrial and feed-grade sugarcane molasses.
- Applications: Renewable energy production, bio-ethanol manufacturing, and livestock feed formulations.
- Key Specs: High Brix content, rich mineral density, optimal total sugars (TSAI).
- Packaging & Shipping: Flexitanks, ISO tanks, or food-grade drums for secure ocean transport.

OUR EXPORT APPROACH

From Kenya to International Markets

Wrangler Global Limited works with buyers from enquiry through shipment.

Typical Process

1. **Buyer Enquiry**: The buyer provides product, quantity, destination, and specifications.
2. **Product Confirmation**: We confirm availability and discuss the required quality and commercial terms.
3. **Specification & Verification:** Samples, photographs, inspection or laboratory testing can be arranged where applicable.
4. **Commercial Agreement:** Price, quantity, payment terms, Incoterms, and shipment arrangements are agreed.
5. **Preparation & Loading:** The product is prepared, packed, and loaded according to the agreed requirements.
6. **Export Documentation & Shipment:** Required export and shipping documentation is coordinated for the transaction.

WHY WORK WITH US

East Africa-Based Sourcing

We have access to Kenyan natural stone and East African agricultural supply networks

Export Coordination

We coordinate product preparation, documentation, and shipment arrangements according to the agreed transaction.

Buyer-Specific Supply

We work around the buyer's required specifications rather than offering a one-size-fits-all product.

International Buyers Welcome

- We welcome enquiries from:
- Importers
- Distributors
- Wholesalers
- Manufacturers
- Processors
- Stone companies
- Commodity traders
